

Practice With Purpose!

- 1) After your lesson, as soon as you get home, return your piano bag to your piano!
- 2) Open your binder and review the lesson by a) reading through the assignment or b) with a quick practice session with a parent.
- 3) Plan and schedule your practice sessions for the week (there should be at LEAST 5).
- 4) Keep your studio binder on your piano and open to your assignment sheet at the beginning of EVERY practice session.
- 5) After practicing, check all assignments that you worked on and record your practice time!!

congratulations on a job well done!
